My dear Garrison

a few hours after the receipt of yours of the 5th which came this morning, Mrs Jones wife of "Robert Jones" called to speak with me on the same subject. She said that her husband had started in the 6 o'clock train this morning to <sup>visit</sup> a short distance, "Lenora Radin" who had concluded to go north instead of returning further with her mother; but that as he had not returned she concluded that he must have left on with Lenora; and as Lenora was intending to take up the "Young People's Girl" at Rahway, and as her mother had sent a dispatch after her to leave

to Parker Pillsbury being in the way. She says a letter from

he stopped, we found the whole  
party had got into trouble.

So I have just now (2 o'clock  
P. M.) sent a telegram to  
"O. Johnson & Wm Leonard" to  
this effect: "Two girls brought  
north by masters & therefore  
free, are supposed to be illegally  
detained at Rahway. So  
be, act cautiously." -

I trust that they will get  
through safely; but - act - there  
<sup>might be some</sup> ~~should be any~~ trouble I  
thought it best to send  
this dispatch. If you hear  
nothing further from me on  
the subject, you may infer  
that all has gone right.

I am glad you liked my  
Report. I am pleased to think

that you approved the sentiment  
expressed when (toward the end)  
it says. "My (abolitionists) cannot  
vote, or otherwise take an active  
part in politics, until that  
compact is either dissolved, or  
be confirmed by authoritative recog-  
nition to be in the present, as to  
give this perhaps, in the  
eyes of the world, the unam-  
biguous meaning of a <sup>voter</sup> ~~the best~~  
against slavery". I say and  
that as friend Doehnie, and  
its utterance at this time,  
good friend, and I am pleased  
to think you are of the same  
mind.

Our Annual meeting was  
a good one; and now the  
love for the fight with which  
it has set us. Now how:

of my life. My is my only companion  
 is an animal thing, and  
 it would be perennial;  
 to for we have advanced  
 somewhat. The fact is we  
 are greatly increased. We  
 have been fighting with these  
 beasts of Ephesus for about  
 25 years; but we have finally  
 to show as the result. Eccc  
 the Election - the natural &  
Precedent. Eccc a "John  
 Brown Abolitionist" to called  
 from one of our Phila dis-  
 tricts. Eccc the fact that in  
 other parts of the Union except  
 the old Bay State, from Lincoln  
 to large a majority, and we  
 member - it was backed of fla-  
 my that did it. And remember  
 that we have two units of flame bro-  
 der - that we about as 3 flame flake -  
 that our Emancipation, social, domestic  
 educational, commercial, with the  
 world is closer & more intimate  
 than that of any other free  
 State. I would not dare to say this

to Parker! Pillsbury "belong to the sun". He plays a little game.
